Prashant,

I hope you are doing well and staying safe. Please find attached EPA's approval of the schedule, formalizing the submittal dates of the major draft documents. While some are not primary documents, it is important that we have dates committed to for submittal so that we can continue to move forward. EPA is aware there may be project delays, but it is our expectation that we will all continue to strive to move forward and adjust as needed.

Sincerely,
